

COIN HOARDS

The cause of this high morale rests with one programmer in our department, Morris Hazeldorf, the Q: What's da pard of a song dad isn'd da woids?. You'll just have to live with me as always." "That's mean, Janice," I groaned..together at last. The two of them, and Robbie..us." "That's just what I mean. You import Earth forms now, and we'll never tell the difference." It may be because I was always rotten in math, but it wasn't until right then that I figured out Detweiler's timetable. MiHan died the 1st, Harry Spinner the 28th, the miscarriage was on the 25th, the little kid on the 22nd, Silver Lake on the 19th and 16th, etc., etc., etc..young woman. I will?when the authors keep politics out of their stories. But they never do; in fact, it seems absolutely impossible to write anything without immediately making all sorts of assumptions about what human nature is, what good and bad behavior consists of, what men ought to be, what women ought to be, which states of mind and character are valuable, which are the opposite, and so on. Once fiction gets beyond the level of minimal technical competence, a reviewer must address these judgments of value. Generally, readers don't notice the presence of familiar value judgments in stories, but do notice (and object to) unfamiliar ones as "political." Hence arises the insistence (in itself a very vehement, political judgment) that art and politics have nothing to do with one another, that artists ought to be "above" politics, and that a critic making political comments about fiction is importing something foreign into an essentially neutral area. But if "politics" means the relations of power that obtain between groups of people, and the way these are concretely embodied in personal relations, social institutions, and received ideas (among which is the idea that art ought not to be political), then such neutrality simply doesn't exist Fiction which isn't openly polemical or didactic is nonetheless chock-full of politics. If beauty in fiction bears any relation to truth (as Matthew Arnold thought), then the human (including social and political) truth of a piece of fiction matters, for aesthetic reasons. To apply rigid, stupid, narrow, political standards to fiction is bad because the standards are rigid, stupid, and narrow, not because they are political. For an example of (to my mind) profound, searching, brilliant, political criticism, see Jean-Paul Sartre's Saint Genet..The usher who led him to his seat in the second ring sat down beside bun and started to tell him about a Japanese department store that covered an entire sixteen and a half acres, had thirty-two restaurants, two movie theaters, and a children's playground..208.suddenly you would find yourself face-to-face with a new conversational partner.
