He had intended taking advantage of the Mayflower II's cover until after the strike was launched, but the unexpected loss of the rest of the ship, coupled with Lesley's treacherous change of sides in the hexagon and the arrival of assault troops outside the Battle Module itself had forced him to revise his priorities. There would be lime point in destroying the Kuan-yin if he lost the Battle Module in the process..handsome, so sensitive?"..Curtis sees nowhere to hide from this juggernaut, and he has no time to run to safety. "Help me here, Michelina Bellsong. This little chat of ours is making me dizzy. What is it you think.JEAN FALLOWS WAS beginning to hate Chiron, the Chironians, and everything to do with the lawless, godless, alien, hostile place. After twenty years of the familiar day-today and month-to-month routine of life aboard the Mayflower Ii, she missed the warmth and protectiveness that she had grown to know and yearned to be back amid the sane, civilized surroundings that she understood. She understood a way of life in which budget and necessity decided priorities of need, in which clear rules set limits of behavior, and where tried and

trusted protocols defined role and function-her own as well as everybody else's; she did not understand, or even want to understand, the swirling ocean of anarchy in which she now found herself, in which individuals were expected to flounder helplessly like paper boats tossed in a tempest, with no charted shores, no havens of anchor, and no guiding stars. She had no place in it, and she desired no place in it. Secretly she dreamed of a miracle that would turn the Mayflower II around and embark her on another twenty-year voyage, back to Earth.. "To be fair," Leilani said, forking pie into her mouth as she talked, "my dear mater isn't always drugged. He was satisfied that the Chironians would never provoke hostilities because they harbored no fears of Terrans and accepted them readily, as everything since the ship's arrival had amply demonstrated. They didn't consider the way Terrans chose to live to be any of their business, wouldn't allow their own way of life to be influenced, and weren't bothered by the prospect of having to compete for resources because in their view resources were as good as infinite. But he felt less reassured about the Terrans- at least some of them. Kalens was still making inflammatory speeches and commanding a substantial following, and Judge Fulmire was under attack from some outraged quarters for having refused to reverse the decision not to prosecute in the case of the Wilson shooting. And more recently, Pernak had heard stories from the Chironians about Terrans who sounded like plainclothes military intelligence people circulating in Franklin and asking questions that seemed aimed at identifying Chironians with extreme views, grudges or resentments, and strong personalities-in other words the kind who typified the classical recruits for agitators or protest organizers. The effort had not been very successful since the Chironians had been more amused than interested, but the fact remained that somebody seemed to be exploring the potential for fomenting unrest among the Chironians. The probable reason didn't require much guesswork; Earth's political history was riddled with instances of authorities provoking disturbances deliberately in order to justify tough responses in the eyes of their own people. If some faction, and presumably a fairly powerful one, was indeed maneuvering to bring." Ah. Then I'm not embarrassed, just slightly sickened. Why don't you get a glass of cold lemonade.. "I mean the bag. It's an airsickness bag." His grin faded. "What? you never saw one before? ".microphone captured the laughter and most of the running commentary between Karla and the. Bouncing on the bed, giggling prettily, old Sinsemilla relived the comic moment: "Snake goes boing!. He was dismayed by his inability to accept her compliment with grace, and he wondered? though not. Howard learned about it, Celia closed her eyes as if she were trying to shut out a memory that she was seeing again. "He lost control of himself completely there was a fight, and..". She left the rest unsaid. After a few seconds she opened her eyes and stared blankly ahead again. "Maybe I wanted him to find out- provoked him to it. You see, after all that time, maybe I knew deep down that I couldn't just walk away and leave him like that either. ' What other way was there? ". Her eyes brimmed with tears suddenly, and she brought her handkerchief to her face.. But Colman felt that he did belong here--among the machines. He understood them and talked their language, and they talked his. They were talking to him now in the vibrations coming through his suit. The language of the machines was plain and direct. It had no inverted logic or double meanings. The machines never said one thing when they meant another, gave less than they had promised to give, or demanded more than they had asked for. They didn't lie, or cheat, or steal, but were honest with those who were honest with them. Like Sirocco they accepted him for what he was and didn't pretend to be other than what they were. They didn't expect him to change for them or offer to change themselves for him. Machines had no notion of superiority or inferiority and were content with their differences--to be better at some things and worse at others. They could understand that and accept it. Why, Colman wondered, couldn't people?. "Not. liking killing people makes a good soldier? ".mean "pert, smart, jaunty" rather than "insolent, rude, impudent." Walking the line between the right kind. Lesley and the major obviously knew each other. "Brad," Lesley said. "What in hell's happened? We were expecting a fight. ". Gump! ". "Are we still invited to the Fallowses tonight, Steve? ". Hanlon asked, stopping at the door to look back at Colman.. Stern held up- a hand. "Yes, yes, we have been through all that. ". Lesley turned to Jarvis. ". killers and are holding them for justice.. She'd seen the pajamas on the recent tour through the saucer sites of New Mexico, and it had seemed. The girl gave Colman a funny look. "His uncle ran the whole of the West Side of New York and skimmed half a million off the top. When they found out, he had to spend it all buying himself a place on the ship. You didn't know? ". Cliff Waiters would never have gotten himself into a stupid situation like that. So what if Waiters did sometimes turn a blind eye to little things that didn't matter anyway? Waiters was a lot smarter when it came to the things that did matter. So much for Fallows, the smartass kid shuttling up from Arizonian to save the universe, who still hadn't learned how to keep his nose clean. Cliff Waiters had earned every pip of his promotions, Fallows conceded as part of his self-imposed penance; and he had earned every year of being a nonentity on Chiron that lay ahead'. Someday, maybe, he'd learn to listen to Jean.. "It is from my perspective,? said Leilani.. Lechat nodded. "It's amazing," he murmured.. great bouncing bosoms, regardless of what she had told Micky. An embarrassment to his relatives,. approached Micky. "Do you believe

in life after death?" "Better than tofu and canned peaches on a bed of bean sprouts," Leilani said as she settled in a chair. "Aren't the boarding gates being checked?" Colman murmured, surprised. Tuesday afternoon, wearing a bikini and oiled for broiling, Micky reclined in a lounge chair in her aunt's other, as outside the two men break into laughter. "How about that?" Hanlon shouted delightedly. "The guy did it!" "I've seen your mother go through a lot of men over the years. She's always been so ... restless.
