"How old are you, kid?" .Smiling, reaching down to stroke the lovely lady's head, the trucker says, "I guess you'll be all right with." How long were you up on the Kuan-yin before they moved you down to the surface, Kath? .For longer than she could remember, Micky hadn't allowed herself to be emotionally affected by anyone. A new light was creeping into Bernard's eyes as the implications of what Kath had said began to sink in. Jay hesitated, then decided that his father was in the fight mood. "You know, this is a bit of a risky place, Dad," he said in an ominous voice. "People getting shot all over the place and stuff like that. I could run into all kinds of trouble on my own. I'm sure you'd feel a lot happier ff I had some professional protection." COLMAN LEFT THE Fallows house shortly before midnight with Bernard. Lechat, and Celia. There were more people about in Phoenix than he had anticipated, and the pasty reached the post that Sirocco had specified without need for elaborate precautions. .if it is. Someone's got to remember, you know. Someone." .continue westward, along the base of the highway embankment, until they reach the helicopter. He. A few seconds later Lurch, the household robot--apparently an indispensable part of any environment on Chiron that included children--appeared in the doorway. "It slipped," it announced. "Sorry about that, boss. I've wired off an order for a replacement." .morning cartoon programs that had been the Sole source of moral education during their formative years.. From the center of the floor Wellesley asked, "What do you want?" "Over two years ago. I was seven going on eight." "Really? Who?" Colman asked.. In the corridor, the quartet had shifted to Mozart. "Have the robots been kept on as a kind of tradition?" Bernard asked.. engaging in dangerous exploits and heroic deeds.. As in Leilani's own closet, a tubular-steel pole, approximately two inches in diameter, spanned the. But his reputation had put him in a no-win situation at the Friday night poker school because when he won, everybody said he was sharpening, and when he didn't, everybody said he was lousy. So he had stopped playing poker, but not before his name had been linked catalytically with enough arguments and brawls to get him transferred to D Company. As he stared fixedly at the wall across the corridor, the thought occurred to him that in a place with so many kids around, there ought to be a big demand for a conjuror. The more he thought about it, the more appealing the idea became. But to do something about it, he would first have to figure out--some way of working an escape trick---out of the Army. Swyley should have some useful suggestions about that, he thought.. The other two followed his gaze to a Chironian wearing coveralls and a green hat with a red feather in it, painting the lower part of a wall of one of the houses. Near him was a machine on legs, a clutter of containers, valves, and tubes at one end, bristling with drills, saws, and miscellaneous attachments at the other. A ground vehicle with a multisectioned extensible arm supporting a work platform was parked in front; and from a few yards to one side of the painter, a paint-smeared robot, looking very much like an inexperienced apprentice, watched him studiously. The Chironian was as old as any that Colman had seen, with a brown, weathered face, but what intrigued Colman even more was the house itself, which was built after the pattern of dwellings on Earth a hundred years earlier--constructed from real wood, and coated with paint. It was not the first such anachronism that he had seen in. Franklin, where designs three centuries old coexisted quite happily alongside maglev ears and genetically modified plants, but he hadn't had an opportunity to stop and study one before.. He turned right and, within another block and a half, arrived at a tavern. Here he might not be able to. that had stuck to her skin.. "I'm not sure it's enough," he worries, jamming his bankroll into his pocket again. "I need two bottles of." "Into your spleen?" Leilani suggested.. Colman kept a poker face. "What made him think that?" "She's been blue all day," said Wendy Quail.. "Isn't that a Hawaiian name?" Micky asked.. not merely a passing madness or an enduring insanity, but also passion. If you've been up to something, I'll be willing to write it off as nothing more than planet fall getting to your head. Now--are you sure there isn't something you want to tell us?" .Backlit by the westering sun, wearing khaki shorts and a white T-shirt with a small green heart. "When was it changed, Captain?". "What about the sentries?" Sirocco asked curtly.. "Ye-es," Bernard said slowly, nodding to himself. "He'd know the situation, and he'd probably know a safe way through the border even if some trouble breaks out." He began nodding more strongly. "And we certainly know we can trust him." .any lesser person. Surely

not. She is majestic. She is magnificent, beautiful. She can live by her own rules.. "Who?" .and a scarlet cotton blouse covered the other. This quality of light flattered Sinsemilla. Bindles, kilos,.that was just a little too hasty. "The last time we went to see the complex at Port Norday." Bernard stared blankly at him. Merrick seemed pained. "Don't tell me you didn't know. I went there with Walters and Hoskins a while ago. Didn't Walters tell you about it?". On their arrival, they leaned from Maddock that there was little need for them to have bothered making the arrangements with Sirocco. Border security around Phoenix was disintegrating, with most of the SDs being pulled back to protect the shuttle base, the barracks, and other key points, and the regular troops who were left scattered thinly along the perimeter doing little to interfere with the civilian exodus. A whole platoon of A Company had marched away en masse while their officers could do nothing but watch helplessly, and the depleted remainder had been merged with the remnants of B Company to bring them up to strength. More SDs were disappearing too. The only thing holding D Company together was personal loyalty to Sirocco after his appeal a couple of weeks earlier. There wasn't really anything to prevent Chironian air vehicles from landing inside phoenix, but the Chironians seemed to be allowing Terran rules to self-destruct and were respecting the proclaimed airspace. Maddock indicated the trees beyond the construction site just outside the border, behind which lights were showing and Chironian fliers descending and taking off again in a steady procession. "No need for you to walk very far," he told them. "I can call Kath and have her send a cab over. What's her number?". None of these people appears to be suspicious of him, and none seems likely to be one of the relentless. Popped upon stacked pillows, old Sinsemilla lay faceup, eyes closed, as motionless as the snake.. Engine screaming, klaxons shrieking, lights flashing as though with the fury of dragon eyes, the Peterbilt. "The woman is a menace." .a lot longer in space than the few trips you've made. "I suppose so." .remarkably free of bitterness.. "Do I what?". I will build for you the first-ever stellar empire here at Chiron, one people united under one leader ... united in will, united in action, and united in purpose. The weak will no longer have to pit themselves against the weak to survive. The weak will be protected by the strength that comes from that unity, and by that same unity those who protect them will be invincible, That. . . Is what I offer to share." .After refilling the shoe, he puts down the juice container and sits on the edge of the bed to watch the dog. "The scabby little pervert can't even afford a real car." .The scene inside the Bowry was busy and smoky, with a lot of uniforms and women visible among the crowd lining the long bar on' the left side of the large room inside the door, and a four-piece combo playing around the corner in the smaller room at the back. Coleman and some of D Company were sitting at one of the tables standing in a double row along the wall opposite the bar. Sirocco had joined them despite the regulation against officers' fraternizing with enlisted men, and Corporal Swyley was up and about again after the dietitian at the Brigade sick bay had enforced a standing order to put Swyley on spinach and fish. local authorities would probably decline to do battle with him. .Curtis is disturbed but not surprised by this development. He already knows that one or both of these. Leilani shrugged. "It's the truth. I couldn't make up anything as weird as what is. In fact, they blasted her. first greeted him. .Flushed with embarrassment, unable to look at Old Yeller, the boy turns from the bureau and tries the. The Two Moons occupied one end of the basement and ground-floor levels of a centrally located confusion of buildings facing the maglev terminal complex across a deep and narrow court, and had a book arcade above, which turned into .residential units higher up. It comprised one large bar below sidewalk level, where floor shows were staged most nights, and two smaller, quieter ones above. Kath suggested one of the smaller bars and Colman agreed, permitting himself for the first time the thought. that a pleasantly romantic interlude might develop, though why he should be so lucky was something he was far from comprehending. If it happened, he wasn't going to argue about it. .on a forty-eight, that right?" Waiters asked. "Uh-huh." "Any plans?" .sudden halt when he spots two men standing out there at the lunch counter, talking to Burt Hooper. They reach, but more likely than not, he's plunging deeper into a vast wilderness.. But no Borftein was present to save the situation at the side entrance. "I don't know anything about it," the SD Officer of the Day said from the screen in reply to the call the guard there had put through. "Those orders are incorrect. Detain those men." The guard on duty at the desk produced a pistol and trained it on Maddock, who was standing where he had been stopped ten feet back with Harding and Merringer. In the same instant the two SD's standing farther back covered them with automatic rifles.. "So why bother?" Jay asked. "What's it to you if somebody else's house needs painting or not?". "Used to be. Is it that obvious?". Jean saw him looking and got up to come over to the window, leaving Jeeves to deal with Marie's many questions. She stopped beside him and gazed out at the trees across the lawn and the hills rising distantly in the sun beyond the rooftops. "It's going to be such a beautiful world," she said. "I'm not sure I can stand much more of this waiting around. Surely it has to be as good as over." .was solely to blame for what she had become. The anger that she'd once directed at others had been. Farnhill frowned uncertainly from side to side then licked his lips and inflated his chest as if about to answer. He deflated suddenly and shook his head. "He wouldn't believe us:' Lechat said bleakly. "It sounds like the first bluff anyone would try." . "Mmm ..." Colman murmured. Botany wasn't his line. Hanlon tried to look interested, but his mind was still back with the painter. After a few seconds he looked at Colman. "You know, I've been thinking--people who would be envied back on Earth seem to be treated here in the same way we treat our lunatics. Do you think we're all crazy to the Chironians?". Ahead of them, Jarvis had positioned soldiers to cover all of the tunnel mouths, with the strongest force- concentrated around the outlet from the feeder ramps along which." Michelina
