that he thought about his pupil, and not until he had eaten supper alone that he admitted that. The four Kargad islands are mostly arid in climate but fertile when watered and cultivated. The Kargs have maintained a society that appears to be little influenced, except negatively, by their far more numerous neighbors to the south and west. Each True Rune has a significance, a connotation or area of meaning, which can be more or less defined in Hardic; but it is better to say that the runes are not words at all, but spells, or acts. Only in the syntax of the Old Speech, however, and only as spoken or written by a wizard, not as a statement but with intention to act, reinforced by voice and gesture-in a spell-does the word or the rune fully release its power. . . . damaged hip, the wise woman salved the cuts from the rocks on his hands and head and knees, his. The water shivered. He felt it first on his thighs, a lapping like the tickling touch of fur; then. She sat on a while by the Thwilburn. She was troubled by what he had told her and by her thoughts and feelings in the Grove, and troubled that any thought or feeling could have troubled her there. She went to the house, set out her supper of smoked meat and bread and summer lettuce, and ate it without tasting it. She roamed restlessly back down the streambank to the water. It was very still and warm in the late dusk, only the largest stars burning through a milky overcast. She slipped off her sandals and put her feet in the water. It was cool, but veins of sunwarmth ran through it. She slid out of her clothes, the man's breeches and shirt that were all she had, and slipped naked into the water, feeling the push and stir of the current all along her body. She had never swum in the streams at Iria, and she had hated the sea, heaving grey and cold, but this quick water pleased her, tonight. She drifted and floated, her hands slipping over silken underwater rocks and her own silken flanks, her legs sliding through waterweeds. All trouble and restlessness washed away from her in the running of the water, and she floated in delight in the caress of the stream, gazing up at the white, soft fire of the stars. . . . hand pressed to his hip joint, which made it a little easier to walk. The walls narrowed gradually. "And when he doesn't have any?" . . . had not come from Roke to trudge about on foot in the mud and dust of country byways. . . . Crafty men used weather as a weapon, sending hail to blight an enemy's crops or a gale to sink his. "We could find no trace of him. No doubt he changed himself to a bird or a fish when he left Roke. . . . "He won't," said Irioth. . . . laughed, but the old people said, "Look out. Take care. Keep hidden." . . . Trusting the messenger, Morred entered the trap. He barely escaped with his life. The Enemy pursued him from the east to the west of Enlad in a trail of ruin. On the Plains of Enlad, meeting the companions who had stayed loyal to him, most of them sailors who had brought their ships to Enlad to aid him, Morred turned and gave battle. The Enemy would not confront him directly, but sent Morred's own spell-bound warriors to fight him, and worse, sent sorceries that shriveled up the bodies of his men till they "living, seemed the black thirst-dead of the desert." "Your turn to talk," she said, looking at me over her cup. The Summoner looked up at Irian. Slowly he raised his arms and the white staff in the invocation of a spell, speaking in the tongue that all the wizards and mages of Roke had learned, the language of their art, the Language of the Making: "Irian, by your name I summon you and bind you to obey me!" asked herself, looking at her strong bare arms, the slight, soft swell of her breasts in the. and flew. After spending the next several days trying to recapture the missing word, he had set Silence to studying the Acastan Spells. Together they had finally worked it out, a long toil. "Like ploughing with a blind ox," Dulse said. They came ashore in Ilien for water and food. Setting a host of many hundreds of men on its way so quickly had left little time for provisioning the ships. They overran the towns along the west shore of Ilien, taking what they wanted, and did the same on Vissti and Kamery, looting what they could and burning what they left. Then the great fleet turned west, heading for the one harbor of Roke Island, the Bay of Thwil. Early knew of the harbor from the maps in Havnor, and knew there was a high hill above it. As they came nearer, he took dragon form and soared up high above his ships, leading them, gazing into the west for the sight of that hill. dark. He had heard talk of the Closed Sea, south and east of O, where there were rich isles, little known, that had no commerce with the lands of the Inmost Sea. What he sought might be there.
