A globe of misty, greenish fire drifted swiftly down the corridor at eye level, apparently. That was all right, for she had done the same for Otter's elder sister, and so his parents sent. "I'd tell you mine," she said. "If that... if that's how we should begin." "Come on then, my love," the young woman said, not to him. The mare followed her trustfully. They set off up the rough path round the hillside to an old stone and brick stableyard, empty of horses, inhabited only by nesting swallows that swooped about over the roofs calling their quick gossip..down.. Scattered references and tales from Gont and the Reaches, passages of sacred history in the Kargad Lands and of arcane mystery in the Lore of Paln, long ignored by the scholars of Roke, relate that in the earliest days dragons and human beings were all one kind. Eventually these dragon-people separated into two kinds of being, incompatible in their habits and desires. Perhaps a long geographical separation caused a gradual natural divergence, a differentiation of species. The Pelnish Lore and the Kargish legends maintain that the separation was deliberate, made by an agreement known as *verw nadan*, *Vedurman*, the Division..aloud..up. Medra walked there too, but not so far as she, for he was lame..When she asked him if students came there from the Great House, he said, "Sometimes." Another time he said, "My words are nothing. Hear the leaves." That was all he said that could be called teaching. As she walked, she listened to the leaves when the wind rustled them or stormed in the crowns of the trees; she watched the shadows play, and thought about the roots of the trees down in the darkness of the earth. She was utterly content to be there. Yet always, without discontent or urgency, she felt that she was waiting. "You're a beautiful woman," he said, but plainly, not in the flattering way he had used with her at first, before she showed him she hated it. "Why would you be a man?" I had the faint hope that it was only because of my height. "It isn't the same kind of thing." He lay as if dead, cold, his heart not beating, yet he breathed. The Herbal used all his art, but could not rouse him. "He is dead," he said. "The breath will not leave him, but he is dead." So we mourned him. Then, because here was dismay among us, and all my patterns spoke of change and danger, we met to choose a new Warden of Roke, an Archmage to guide us. And in our council we set the young king in the Summoner's place. To us it seemed right that he should sit among us. He had a sweet singing voice, a true ear, and a love of music, so that his mother, Tuly, called him Songsparrow and Skylark, among other loving names, for she never really did like "Diamond." He trilled and caroled about the house; he knew any tune as soon as he heard it, and invented tunes when he heard none. His mother had the wisewoman Tangle teach him The Creation of Ea and The Deed of the Young King, and at Sunreturn when he was eleven years old he sang the Winter Carol for the Lord of the Western Land, who was visiting his domain in the hills above Glade. The Lord and his Lady praised the boy's singing and gave him a tiny gold box with a diamond set in the lid, which seemed a kind and pretty gift to Diamond and his mother. But Golden was a bit impatient with the singing and the trinkets. "There are more important things for you to do, son," he said. "And greater prizes to be earned." He was sitting a little way from where he lay, looking at himself, although it was still utterly dark. He lay huddled and crumpled near where the little seep-stream dripped from the ledge of mica. Not far away lay another huddled heap, rotted red silk, long hair, bones. Beyond it the cavern stretched away. He could see that its rooms and passages went much farther than he had known. He saw it with the same uncaring interest with which he saw Tinaral's body and his own body. He felt a mild regret. It was only fair that he should die here with the man he had killed. It was right.
