265."It's a fascinating magazine. I look at it almost every week. Sometimes I'm just too busy, but usually I skim it, at least".David (or Murray) was about twenty-five, redheaded, and freckled. He had a slim, muscular body which was also freckled. I could tell because he was wearing only a pair of jeans, cut off very short, and split up the sides to the waistband. He was barefooted and had a smudge of green paint on his nose. He had an open, friendly face and gave me a neutral smile-for-a-stranger. "Yes?" he asked..to walk in. "I have some people here. Can it possibly wait?".A: The Sheep Look Up."I think I can answer that," McKUlian said. "These organisms barely scrape by in the best of times. The ones that have made it waste nothing. It stands to reason that any really ancient deposits of crude oil would have been exhausted in only a few of these cycles. So it must be that what we're thinking of as crude oil must be something a little different It has to be the remains of the last generation."."No!" Her vehemence startled me. She quickly lowered her voice and went on: "My friends call me.She raised her feet so a group of three gawking women from the ship could get by. They were letting them come through in groups of five every hour. They didn't dare open the outer egress more often than that, and Lang was wondering if it was too often. The place was crowded, and the kids were nervous. But better to have the crew sat-.afternoon the Company had refused to budge from its original offer of a flat five-percent raise and that.bother me and I won't bother you. It's earlier than usual, but obviously there's enough body heat to keep the dome buoyed aloft I imagine the Central Arena drifting away like that floating city they want to make out of Venice, California. There is something appealing about the thought of this dome floating away like dandelion fluff. But now the massive air-conditioning units hum on and the fantasy dies..intercoms and telephones. He kept on into October without stopping and finally achieved a system that."When we were bora," he said, and his eyes focused again, "we were joined at the back. But I grew and he didn't. He stayed little bitty, like a baby riding around on my back. People didn't like me ... us, they were afraid. My father and mother too. The old witch-woman I told you about, she birthed us. She seemed always to be hanging around. When I was eight, my parents died in a fire. I think the witch-woman did it. After that I lived with her. She was demented, but she knew medicine and healing. "Do you ... do you realize . . .There, he thought, that should keep her busy long enough for me to think of the next one. He opened a second beer and took a meditative swallow. Did poets ever write poems about drinking beer? Or was that too general? Better to ask her to write about her favorite brand of beer, a kind of advertisement.Speaking of Hazeldorf, I was a little disappointed in his reaction to the project When I explained to.sunk below the edge of the ocean. Those had been stirring years, vibrant years, inspiring years. Fallows remembered the floodlit parades .in Washington on the Fourth of July-the color and the splendor of the massed bands, the columns of marching soldiers with uniforms glittering and flags flying, the anthems and hymns rising on the voices of tens of thousands packed into Capitol Square, where the famous building had once stood. He remembered strutting into a high-school ball in his just acquired uniform of the American New Order Youth Corps and pretending haughtily not to notice the admiring looks following him wherever he went. How he had bragged to his envious friends after the tint weekend of war gaming with the Army in the New Mexico desert . . . the

She was wearing levis and a T-shirt with the word "Princess" in big, glitter-dust letters across her breasts. Her hat said: "Let Tonight Be Your Enchanted Evening at Partylandl". Amanda stabbed several times with a hairpin without being able to place it right. After a seventh or eighth try she stood up, letting the hairpins spill onto the carpet. She walked to the far end of the fireplace, where she stood with her back to me, toying with the tops of the fire tools. "It hasn't been long at all since?since I told you I... trusted you."207.What the woman was saying was of a character to suggest that she had just that minute gone crazy. "The pain," she explained calmly to the ice cream section of the freezer, "only comes on when I do this." She stooped closer to the ice cream and winced. "But then it's pure hefl. I want to cut my leg off, have a lobotomy, anything to make it stop. Yet I know the problem isn't in my leg at all. It's in my back. Here." She touched the small of her back. "A kind of short circuit Worse than bending over is twisting sideways. Even turning my head can set it off. Sometimes, when I'm alone, I'll start crying just at the thought of it, at knowing I've become so damned superannuated." She sighed. "Well, it happens to everyone, and I suppose it could be worse. There's no use complaining. Life goes on, as they say."They started forward again toward the fires. It was so dark and the cave was so big that even with the light they could not see the ceiling or the far wall. The fires themselves burned in huge scooped out basins of stone. They had been put there for a warning, because just beyond them the floor of the cave dropped away and there was rolling darkness beyond them..with Crawford's assessment.."So do I," Lang said, ending the discussion. But she explained her reasons to them..Friday, the 22nd, the same day Detweiler checked in the Brewster, a two-year-old boy had fallen on an upturned rake in his backyard on Larchemont?only eight or ten blocks from where I lived on Beachwood. And a couple of Chicano kids had had a knife fight behind Hollywood High. One was dead and the other was in jail. Ah, machismo!.Award finalist..She was answered by quiet assent and nods of the head. Crawford.She was nothing if not honest. In the succeeding mornings, if I ran too slowly, she simply left me behind. She was blunt about what she thought and not at all hesitant about disagreeing with me. Still, there was no verbal swordplay and no pretense about her, which was as attractive in its way as Amanda's charming acquiescence. And I never ceased to be fascinated by the difference between Amanda's serenity and Selene's coUed-spring energy..me. The vision of loveliness who opened the door was about forty, almost as sum as Twiggy, but as tall as I. He wore a flowered silk shirt open to the waist, exposing his bony hairless chest, and tight white pants that might as well have been made of Saran Wrap. He didn't say anything, just let his eyebrows rise inquiringly as his eyes flicked down, then up..need to be done." "It will be tomorrow at four o'clock in the morning," said the grey man. "So don't stay up too late."..Now she lay on the bunk, her feet sprawled carelessly in front of her. She slowly shook her head back and forth..In the garden the grey man, with sunglasses tightly over his eyes and an umbrella above his head, was.the record I'd like to cite a few pertinent facts..When the blowout started, Lang had snapped on her helmet quickly. Then she had struggled against the blizzard and the undulating dome bottom, heading for the roofless framework where the other members of the expedition were sleeping. The blowout was over in ten seconds, and she then had the problem of coping with, the collapsing roof, which promptly buried her in folds of clear plastic. It was far too much like one of those nightmares of running knee-deep in quicksand. She had to fight for every meter, but she made it..to the trunk, lifted the lid, and tossed it in.."Thanks." Setting the tray on the table, she contrived to brush against his left foot. "I see you're wearing the same shoes."..She considered the accusation. "I wouldn't choose her for a friend. I think she's insipid and gutless. She could have sent Teddy on his way with a few polite words instead of making an incident of it. Still, I think I pity rather than dislike her. Don't I let myself get sucked into looking after her like everyone else? That sweet, yielding, dependency is no more than what her father trained into her. It's the Senator I dislike." She snorted. "Imagine a contemporary man with a nineteenth-century taste in women. No wonder my mother left him." She began dancing again..Then came the examination, the removal to the hospital, the tests."They pay Jain. She's the star." / tried to get on top; she wouldn't let me. But it was already too late. He didn't know if it would have made any difference if Mary Lang had tried to save him first.I left to pick up Amanda.."Then we'll work it so you won't have to hide," said Amos. The whole thing ripped its way out and fell onto the couch.The grey man took the third piece of mirror to his cabin, but he was too ill to fit the fragments together. So he put the last piece on top of the trunk, swallowed several aspirins, and lay down..Lang stood up and shook Song's shoulder. Song came slowly back to them and sat down, still.no word of farewell. Her thoughts were on the hunter, the man of the wolves. She never doubted he.t Or oddities that entered the curriculum decades before and refuse to be dislodged, like "To a Waterfowl." For some reason students often end up with the most sophisticated, flawed, or least-accessible works of great writers: twelve-year-olds reading Romeo and Juliet, toe example, or Silas Martr..
