Day by day, as they talked in the old stableyard of Iria, where they had fallen into the habit of meeting, she asked him and he told her more, though reluctantly, always partially; he shielded his Masters, she thought, trying to defend the bright image of Roke, until one day he gave in to her insistence and spoke freely at last. "There, you see -- did you know in which direction the water flowed before it. . . ?". Azver went quickly to where Irian lay beside the stream, and the others followed him. "Well," he said, "in the first place, when I got to the city, I go up to the palace, just to hear the news, and what do I see? I see old King Pirate standing on his legs, shouting out orders like he used to do. Standing up! Hasn't stood for years. Shouting orders! And some of em did what he said, and some of em didn't. So I got on out of there, that kind of a situation being dangerous, in a palace. Then I went about to friends of mine and asked where was old Early and had the fleet been to Roke and come back and all. Early, they said, nobody knew about Early. Not a sign of him nor from him. Maybe I could find him, they said, joking me, hm. They know I love him. As for the ships, some had come back, with the men aboard saying they never came to Roke Island, never saw it, sailed right through where the sea charts said was an island, and there was no island. Then there were some men from one of the great galleys. They said when they got close to where the island should be, they came into a fog as thick as wet cloth, and the sea turned thick too, so that the oarsmen could barely push the oars through it, and they were caught in that for a day and a night. When they got out, there wasn't another ship of all the fleet on the sea, and the slaves were near rebelling, so the master brought her home as quick as he could. Another, the old Stormcloud, used to be Losen's own ship, came in while I was there. I talked to some men off her. They said there was nothing but fog and reefs all round where Roke was supposed to be, so they sailed on with seven other ships, south a ways, and met up with a fleet sailing up from Wathort. Maybe the lords there had heard there was a great fleet coming raiding, because they didn't stop to ask questions, but sent wizard's fire at our ships, and came alongside to board them if they could, and the men I talked to said it was a hard fight just to get away from them, and not all did. All this time they had no word from Early, and no weather was worked for them unless they had a bagman of their own aboard. So they came back up the length of the Inmost Sea, said the man from Stormcloud, one stragglng after the other like the dogs that lost the dogfight. Now, do you like the news I bring you?" .platform. Once the Master of Iria said he would or would not allow a thing he never changed his mind, priding himself on his intransigence, since only weak men said a thing and then unsaid it. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control." Rose made a dim glow of werelight so that they could find their way through the marshy ground around the spring without falling in a sinkhole among the reeds. In the cold darkness under a few stars and the black curve of the hill, they stripped and waded into the shallow water, their feet sinking deep in velvet mud. The witch touched the girl's hand, saying, "I take your name, child. You are no child. The boy they brought was in such a paroxysm of terror that even Early was disgusted by him. How could he frighten a creature already blind and beshatten with fear? He set a binding spell on the boy that held him upright and immobile as a stone statue, and left him so for a night and a day. Now and then he talked to the statue, telling it that it was a clever lad and might make a good prentice, here in the palace.
