In repose, the lithe brown body was grotesquely elongated, the wide mouth accentuating the ugliness of her face. How could he have coupled with this creature? Nolan grimaced in self-disgust as he turned away.."Friendship

is a rare thing these days," said Amos. "What sort of help do you and your friend need?". Take that bulge apart and you'd be amazed at the resemblance to a human heart. So there's another significant fact; this place started out with whirligigs, but later modified itself to use human heart pumps from the genetic information taken from the bodies of the men and women we buried," She paused to let that sink in, then went on with a slightly bemused smile.. He fumbled for the bottle beside the bed, gripping it with a sweaty hand. His entire body was wet and clammy, and his fingers shook as they unscrewed the cap. And from half a dozen directions they heard: Come on, just a little way. . . just a little way. . . little way. . . . "It sounds very specialized," McKillian said thoughtfully. "Maybe we should be looking for the niche it occupies. The way you describe it, it couldn't function without help from a symbiote. Maybe it fertilizes the plants, like bees, and the plants either donate or are robbed of the power to wind the spring. Did you look for some mechanism the bug could use to steal energy from the rotating gears in the whirligigs?" "I thought you'd write something about me." "Would you like me to do that?" He's very handsome, like an angel, a dark angel. But it wasn't his handsomeness that attracted me." She smiled. "I've seen many handsome men in my day, you know. It's difficult to verbalize. He has such an incredible innocence. A lost, doomed look that Byron must have had. A vulnerability that makes you want to shield and protect him. I don't know for sure what it is, but it struck a chord in my soul. Soul," she mused. "Maybe that's it. He wears his soul on his face." She nodded, as if to herself. "A dangerous thing to do." She looked back up at me. "If that quality, whatever it is, would photograph, he would become a star overnight, whether he could act or not. Except ?of course?for his infirmity." for me to risk seeming preoccupied or impatient. I kept smiling, though inside I felt as Selene looked tiredly against the wall. The lander was not the most comfortable place to hold a meeting; all the couches who still had a chance. She knew it now, but didn't like it any better than she had liked it then.. "I always thought it would be something flashy, or at least obvious. An alien artifact mixed in with caveman bones, or a spaceship entering the system. I guess I was thinking in terms of pottery shards and atom bombs." I was sitting there, wondering how in hell I would find him, when the phone rang again. Miss Tremaine stopped typing and lifted the receiver without breaking rhythm. "Mr. Mallory's office," she said crisply, really letting the caller know he'd hooked onto an efficient organization. She put her hand over the mouthpiece and looked at me. "It's for you? an obscene phone call." She didn't bat an eyelash or twitch a muscle.. Moises shook his head. "This I do not know.
