

## THE CODE OF CIVIL PROCEDURE OF THE STATE OF CALIFORNIA

A mutual interest in ballroom dancing had resulted in their introduction when each needed a new partner for a fox-trot and swing competition. Nolly had started taking lessons five years before he had met Kathleen. Agnes called their two-car parade a Christmas caravan, which appealed to Barty's sense of magic and adventure. Repeatedly he turned in his seat and rose to his knees to look back at his uncle Edom, waving vigorously. calm. He tried to imagine what Victoria's breasts would look like, freed from all restraint. He knew she wouldn't just step back to calculate her batting average, so he rolled at once, out of her way, immensely relieved that he could move, because judging by the pain coruscating across his back, he wouldn't have been surprised if she had broken his spine and paralyzed him. The chair crashed down again, exactly where Junior had been sprawled an instant before. folded over his too-tight shirt collar, and with a second chin more prominent than. On the morning of November third, Barty asked Maria to inquire of Agnes what she would like to have read to her. "Then when she answers you, just turn and leave the room. I'll take it from there." The verdant hills to the east lay like slumbering giants under blankets of winter grass, bright in the morning sun. But when the shadows of clouds sailed off the sea and gathered inland, the slopes darkened to a blackish green, as somber as shrouds, and a landscape that had appeared to be sleeping forms now looked dead and cold. He nodded. "The effect not only comes before a cause in this case, but completely without a cause. The effect is staying dry in the rain, but the cause-supposedly walking in a dryer world-never occurs. Only the idea of it." "Too bad. You might have used that to bargain with." In the refrigerator, he found a stick of butter in a container with clear plastic lid. He took the container to the cutting board beside the sink, to the left of the cooktop, and opened it. "You know where it comes from," her mother said with a yawn that betrayed her exhaustion after a night with no sleep and too much drama. Raise high the candlestick. In spite of the masking music, breathe shallowly and through the mouth. Remain poised, ready. which was tied a gift tag bearing a hand-printed message: With our compliments. Thanks for your business. For more than twenty-three years, he'd given his big toe little consideration, had taken it for granted, had treated it with shameful neglect. Now this lower digit seemed precious, a comparatively small fixture of flesh, but as important to his image of himself as his nose or either of his eyes. Curiosity brought him here. Curiosity and a talent for self-preservation. Earlier, Vanadium had not come to Naomi's graveside as a mourner. He had been there as a cop, on business. Perhaps he had been at the other funeral on business, too. She thought of herself as a creative person, a capable and efficient and committed person, but she did not think of herself as a strong person. Yet she would need great strength for what lay ahead. "In a way, he does," Vanadium said. "When you're as hollow as Enoch Cain, the emptiness aches. He's desperate to fill it, but he doesn't have the patience or the commitment to fill it with anything worthwhile. Love, charity, faith, wisdom-those virtues and others are hard won, with commitment and patience, and we acquire them one spoonful at a time. Cain wants to be filled quickly. He wants the emptiness inside poured full, in quick great gushes, and right now." "Naomi--she popped out of my oven twenty years ago, not out of yours," Sheena continued in a fierce whisper. "If anyone's suffering here, it's me, not you. Who're you, anyway? Some guy who's been boinking her for a couple years, that's all you are. I'm her mother. You can never know my pain. And if you don't stand with this family to make these wankers pay up big-time, I'll personally cut your balls off while you're sleeping and feed them to my cat." With the successful consumption of the burger and with the addition of the third Sklent to his collection, Junior felt more upbeat than he'd been in quite a while. Contributing to his better mood was the fact that he hadn't heard the phantom singer in longer than three months, since the library in July. Even without the dangling cigarette and without the cynical sneer, Nolly had an air of toughness worthy of Sam Spade, largely because the face that nature had given him was a splendid disguise for the sentimental sweetie who lived behind it. With his bull neck, with his strong hands, with his shirt-sleeves rolled up to expose his lovely hairy forearms, he made a properly intimidating impression: as if Humphrey Bogart, Sydney Greenstreet, and Peter Lorre had been put in a blender and then poured into one suit. Angel cocked her head and studied his left hand, which he had closed while opening his right. She pointed. "It's there." He was in a mood to shoot her, but this weapon was not fitted with a sound-suppressor. He'd left that gun in Celestina's bedroom. This was the pistol that he had taken from Frieda Bliss's collection, and it was as full of sound as Frieda had been full of spew. "Oh, that's me, all right. I'm on the FBI's most-wanted list for criminal pie jostling." Taking no chances, Junior swung the candlestick again, bending down as he did so. The second impact was not as solid as the first, a glancing blow, but effective. To the left, a door led to a back staircase, accessible with the special key already in his hand. To the right: a key-operated service elevator for which he'd been provided a separate key. WHILE THE SLATS of ash-gray light slowly lost their meager luster, and sable shadows metastasized in sinister profusion, the sentinel silence remained unbroken between Junior Cain and the birthmarked man. For an instant, his attention had been distracted by Vanadium's presentation of his empty hands. Nevertheless, there was no way the cop could have snatched the coin out of the air. WALTER PANGLO, the only mortician in Bright Beach, was a sweet tempered wisp of a man who enjoyed puttering in his garden when he wasn't planting dead people. He grew prize roses and gave them away in great bouquets to the sick, to young people in love, to the school librarian on her birthday, to clerks who had been polite to him. Strangely, as sometimes happened in this room, his missing toe itched. There was no point in removing his shoe and sock to scratch the stump, because that would provide no relief. Curiously, the itch was in the phantom toe itself, where it could never be scratched. Celestina dropped to one knee in front of Angel, to tie the drawstrings of the hood under the girl's chin. Junior suspected that no one other than this man's mother called him Tom. He was probably "Detective" to some and "Vanadium" to most who knew him. He sprang to his feet, or maybe only staggered up, depending on whether his image

of himself right now was pulp or real, and surveyed the scene, looking for the bandaged man. A few neighbors crossed the lawn toward Grace, and others approached along the street. But the killer was gone..Forward, under the spreading black branches of the massive tree, receiving continuous green-tongued murmurs of encouragement from the breeze-stirred leaves, Barty was Barty, determined and undaunted..His silent tears accomplished what his words could not: Nork, Knacker, and Hisscus retreated, urging him to speak to his attorney, promising to return, once more expressing their deepest condolences, perhaps as abashed as attorneys and political appointees could get, but certainly confused and unsure how to proceed when dealing with a man so untouched by greed, so free of anger, so forgiving as the widower Cain..Her elegance was appealing. A pink Chanel suit with knee-length skirt, a strand of pearls. Her figure was spectacular, but she didn't flaunt it. She was even wearing a bra. In this age of bold erotic fashion, her more demure style was enormously seductive..Into new avenues of the labyrinth he moved, but then back again, back upon his own trail, twisting, turning, from the occult to modern literature, from history to popular science, and here the occult once more, always the shadow glimpsed so fleetingly and so peripherally that it might have been imagination, the scent of a woman no sooner detected than lost again in the perfumes of aging paper and bindery glue, twisting, turning, until abruptly he stopped, breathing hard, halted by the realization that he hadn't heard the singing in some time..Years earlier, a stream had been diverted to fill the vast excavation. Stock fish were added, mostly trout and bass..Zedd endorses self-pity, but only if you learn to use it as a springboard to anger, because anger-like hatred--can be a healthy emotion when properly channeled. Anger can motivate you to heights of achievement you otherwise would never know, even just the simple furious determination to prove wrong the bastards who mocked you, to rub their faces in the fact of your success. Anger and hatred have driven all great political leaders, from Hider to Stalin to Mao, who wrote their names indelibly across the face of history, and who were--each, in his own way--eaten with self-pity when young..At the bottom, the killer had pushed the cedar chest aside and clambered to his feet. From out of his raveled Tutankhamen windings, he peered up at Paul and fired one shot without taking aim, almost halfheartedly, before disappearing into the living room..Here again were these peculiar grammatical constructions, which sometimes she had thought were just the mistakes that even a prodigy could be expected to make, and which sometimes she had interpreted as expressions of fanciful speculations, but which lately she had suspected were of a more complex--and perhaps darker--nature. Now her dread took form, and she wondered if the personality disorders that had shaped her brothers' lives could have roots not just in the abuse they had taken from their father, but also in a twisted genetic legacy that could manifest again in her son. In spite of his great gifts, Barty might be destined for a life limited by a psychological problem of a unique or at least different-nature, first suggested by these occasional conversations that seemed not fully coherent..Turning in Celestina's lap, Angel said, "Smell," and held the index finger of her right hand under her mother's nose..The six-foot-tall statue was of a nude woman, formed from scrap metal, some of it rusted and otherwise corroded. The feet were made from gear wheels of various sizes and from bent blades of broken meat cleavers. Pistons, pipes, and barbed wire formed her legs. She was busty: hammered soup pots as breasts, corkscrews as nipples. Rake-tine hands were crossed defensively over the misshapen bosom. In a face sculpted from bent forks and fan blades, empty black eye sockets glared with hideous suffering, and a wide-mouthed shriek accused the world with a silent but profound cry of horror.."Done," Agnes said. "Now put away the three dollars, and let's have our lesson before my water breaks."..The Hackachaks were present, of course. Junior had not yet agreed to join them in their pursuit of blood money. They would give him little privacy or rest until they had what they wanted..With everyone in the diner now aware of Junior, with every head turned toward him and with every wary eye tracking him, he dropped the bun cap and the mustard dispenser on the floor. Barging through the swinging gate at the end of the lunch counter, he entered the narrow work area behind it..Behind his masking hands, the physician let out a thin sound, as though he were trying to pull from his heart an anguish that was embedded like a bur with countless sharp, hooked thorns..After the song concluded, Junior felt better. His heartbeat soon returned to normal. The damp palms of his hands grew dry..Rena laughed. "Oh, but true! And not just a garden. I'm a field of flowers!" She let go of her skirt, which shimmered like cascades of falling petals. "So tonight will be a famous night, Celestina."..In the car again, a block from home, Barty said, "Maybe you could just not tell Uncle Edom and Uncle Jacob until Sunday night. They won't handle it real well. You know?"..Perri had been crippled seventeen years before Jonas Salk's vaccine had spared future generations from the curse of polio..Abruptly alert, sitting up on the edge of the bed, Celestina knew the caller could not be the comatose old woman, so she said angrily, "Who the hell is this?"..Library of Congress Cataloging-in-Publication Data Le Guin, Ursula K., 1929-.Without ceremony or prayer, although with much righteous anger, Junior hoisted the dead musician over the lip of the Dumpster. For a dreadful moment, his left arm tangled in the loosely cinched belt of the London Fog raincoat. Straining a shrill bleat of anxiety through his clenched teeth, he desperately shook loose and let go of the body..She appeared to be in her early thirties, perhaps six years older than Junior, but he didn't hold that against her. He wasn't any more prejudiced against older people than he was against people of other races and ethnic origins..He rolled Neddy onto one side, but no gold watch lay underneath, so he let the musician flop onto his back again..His breath was warm against her throat: "And I want to go back home to see some faces."..He hadn't the slightest doubt that eventually he could romance Renee into marriage, regardless of her wealth and sophistication. He could shape women to his desire as easily as Sklent could paint his brilliant visions on canvas, easier than Wroth Griskin could cast bronze into disturbing works of art.."Who else? I think there's romance in the air. The cow-eyed way he looks at her, she could knock his knees out from under him just by giving him a wink."..On the nightstand stood a stainless-steel carafe beaded with condensation. Maria took the cap off the water carafe, and with a longhandled spoon, she scooped out a chip of ice. Cupping her left hand..She cupped his face in both of her hands and was barely able to lift his head, for fear of

what she would see..A moment ago, he'd slammed into Angel's room, and that was loud, but this boomed louder, thunderous enough to wake people throughout the building..FOR AMERICANS OF Chinese descent-and San Francisco has a large Chinese population-1965 was the Year of the Snake. For Junior Cain, it was the Year of the Gun, though it didn't start out that way..He first eased from aisle to aisle, but soon moved more quickly, convinced that the singer would be found beyond the next turn, and then the next. Was that her trailing shadow he had glimpsed, slipping around the corner ahead of him? Her womanly scent lingering in the air after her passage?..He had already reviewed twenty-four thousand names, finding no Bartholomew, putting red checks beside entries with the initial B instead of a first name. A slip of yellow paper marked his place..Junior's attorney-Simon Magusson--insisted upon full disclosure of maintenance records and advisories relating to the fire tower and to other forest-service structures for which the state and the county had sole or joint custodial responsibility. If a wrongful--death suit was filed, this information would have to be divulged anyway during normal disclosure procedures prior to trial, and since maintenance logs and advisories were of public record, Hisscus and Knacker and Nork agreed to provide what was requested.. "Well, anyway," she said, as though Muffins uncharacteristic viciousness had been adequately explained, "this mending ought to cover ten more lessons."..Again, he cast his line of memory into murky waters nearly four years in the past, to the night of passion that he had shared with Seraphim in the parsonage. As before, he could recall nothing she'd said, only the exquisite look of her, the nubile perfection of her body..Griskin, a former convict, had served eleven years for second-degree murder before the lobbying efforts of a coalition of artists and writers had won his parole. He possessed a huge talent. No one before Griskin had ever managed to express this degree of violence an rage in the medium of bronze, and Junior had long kept the artist's work on his short list of desired acquisitions..Angel followed him and observed as he climbed a stepstool and unhooked the telephone handset. He dialed with little pause between digits, and spoke with each of his uncles..The end of his quest was near, so near, the right Bartholomew almost within 'mullet range. He was furious with Neddy Gnathic for possibly screwing this up..Tom had acted with the best intentions-but also with the intelligence and the good judgment that God had given him and that he had spent a lifetime honing. Good intentions alone can be the cobblestones from which the road to Hell is built; however, good intentions formed through much self-doubt and second-guessing, as Tom's always were guided by wisdom acquired from experience, are all that can be asked of us. Unintended consequences that should have been foreseeable are, he knew, the stuff of damnation, but those that we can't foresee, he hoped, are part of some design for which we can't be held responsible..I'm not the first to observe that much of what quantum mechanics reveals about the nature of reality is uncannily compatible with faith, specifically with the concept of a created universe. Several fine physicists have written about this before me. As far as I am aware, however, the notion that human relationships reflect quantum mechanics is fresh with this book: Every human life is intricately connected to every other on a level as profound as the subatomic level in the physical world; underlying every apparent chaos is strange order; and "spooky effects at a distance," as the quantum-savvy put it, are as easily observed in human society as in atomic, molecular, and other physical systems. In this story, Tom Vanadium must simplify and condense complex aspects of quantum mechanics into a few sentences in a single chapter, because although he isn't aware that he's a fictional character, he is obliged to be entertaining. I hope that any physicists reading this will have mercy on him..In addition to delivering a honey-raisin pear pie, Agnes had come to offer Obadiah Sepharad a year's work-not performing magic, but talking about it..She only half understood their frantic conversation, partly because the ability to concentrate was draining from her along with her lifeblood, but also because she was distracted by Joey. He was no longer in the wreck, but standing at the open rear door of the ambulance..Previously, Miss Pixie Lee had been from Texas, but Angel had recently heard that Georgia was famous for its peaches, which at once captured her imagination. Now Pixie Lee had a new life in a Georgia mansion carved out of a giant peach..Aftermath was not important. Only movement mattered. Just forget the busload of nuns smashed on the tracks, and stay with the onrushing train. Keep moving, looking forward, always forward..Tom Vanadium's uninflected but curiously hypnotic voice, his pensive manner, his gray eyes so beautiful in that fractured face, his air of measured melancholy, and his evident intelligence gave him a presence that was simultaneously as solid as a great mass of granite and yet otherworldly..Yet his heart slammed hard and heavy against his confining ribs, and fear stippled the nape of his neck..No turning back. In the fuming blackness, they would become disoriented in seconds, fall, and suffocate as surely as they would burn. Besides, the open window, providing draft, would draw the fire rapidly down the hallway at their backs..If either of them suspected that she was lying, it was Edom. He looked puzzled, but he didn't pursue the issue..He paused, giving them a chance to ask the obvious question-and then smiled at their reticence..The galerieur's icy demeanor thawed marginally at this proof of taste and financial resources. He either smiled or grimaced at a vague but unpleasant smell-hard to tell which-and identified himself as the owner, Maxim Coquin..Her mouth was as greedy as it was ripe, and her pliant body radiated volcanic heat, and as Junior slipped his hands under her skirt, his mind teemed with thoughts of sex and wealth and power, until he discovered that the heiress was an heir, with genitalia better suited to boxer shorts than to silk lingerie..Judging by Grace's expression when Paul plucked the chest off the floor, he figured it was heavy. He had no way of knowing for sure, because he was in a weird state, so saturated with adrenaline that his heart squirted blood through his arteries at a speed Zeus couldn't have matched with the fastest lightning bolts in his quiver. The chest felt no heavier than a pillow, which couldn't be right, even if it was empty..Both the red and the white wines were too cheap for Junior's taste' so he drank Dos Equis beer and got two kinds of high by inhaling enough secondhand pot smoke to cure the state of Virginia's entire annual production of hams. Among the two or three hundred partyers, some were tripping on some exhibited the particular excitability and talkativeness typical of cokeheads, but Junior succumbed to none of these temptations. Self-improvement and self control mattered

to him; he didn't approve of this degree of self indulgence..Suddenly she realized-Good Lord!-that someone else had a had inside her, up the very center of her, massaging her uterus in the same lazy pattern as that made by the piece of melting ice on her belly.."Those were Rowena's affectionate names for the boys when they were babies. Her private nonsense names for them, because she said they were like two beautiful little elves and ought to have elfin names." .She searched the child's unfocused eyes for some sign of the hateful father's wickedness..This philosophy had worked for him previously, but forgetting the aftermath was more difficult when the aftermath was your own poor, torn, severed toe. Your own poor, torn, severed toe was infinitely more difficult to ignore than a busload of dead nuns..On the high marsh-Dragonfly-A description of Earthsea..same," Agnes admonished. "Who's been raising you, sugarpie, if you don't know that? Are you going to pretend you've been brought up by wolves for nine years?" .Her fear, Agnes suddenly realized, arose from her father's often expressed conviction that an attempt to excel at anything was a sin that would one day be grievously punished. All forms of amusement were sinful, by his way of thinking, and all those who sought even the simplest entertainment were lost souls; however, those who desired to amuse others were the worse sinners, because they were overflowing with pride, striving to shine, eager to make themselves into false gods, to be praised and adored as only God should be adored. Actors, musicians, singers, novelists were doomed to hell by the very acts of creation which, in their egomania, they saw as the equal of their Creator's work. Striving to excel at anything, in fact, was a sign of corruption in the soul, whether one wanted to be recognized as a superior carpenter or car mechanic, or a grower of prize roses. Talent, in her father's view, was not a gift from God, but from the devil, meant to distract us from prayer, penitence, and duty..Dr. Salk returned the photos, put a hand on Paul's shoulder, and smiled. "But that's always the way, you see? Heroes always get back more than they give. The act of giving assures the getting back." .Even above the piston-knock of her heart and the bellows-wheeze of her breath, Celestina heard wood crack, a small pane of glass explode, and metal torque with a squeal. The creep was going to get away..His patience exhausted, the pianist wrenched his hand out of Junior's grip. He glanced around nervously, certain that they must be the center of attention, but of course the reception guests were lost in their witless conversations, or they were gaga over the maudlin paintings, and no one was aware of this quiet little drama..Incredibly, the thief left behind the most valuable items: the collection of hardcover first editions of Caesar Zedd's complete body of work. The box stood open, its contents having been explored in haste, but not a single volume was missing.."WOULD YOU LIKE TO BE MY BOYFRIEND?" asked Miss Velveeta, who had thus far shown no romantic inclinations..He hadn't intended to enter the gallery. No one in his usual circles would attend this show, unless in such a state of chemically altered consciousness that they wouldn't be able to recall the event in the morning, so he wasn't likely to be recognized or remembered. Yet it seemed unwise to risk being identified as a reception attendee if Celestina White's little Bartholomew and maybe the artist herself were murdered later. The police, in their customary paranoia, might suspect a link between this affair and the killings, which would motivate them to seek out and..During the five years following Agnes's death, their family of many names thrived. Barty and Angel had brought them all together in this place fifteen years previously, but the destiny about which Toni had spoken on the back porch, that night in the rain, seemed to be in no hurry to manifest itself Barty could find no painless way to sustain secondhand sight, so he lived without the light. Angel had no reason to shove anyone else into the world of the big bugs, where she'd pushed Cain. The only miracles in their lives were the miracles of love and friendship, but the family remained convinced of eventual wonders, even as they got on with the day at hand..Posing as a counselor with Catholic Family Services, he phoned each listed Bartholomew, with a question related to his or her recent adoption. Those who expressed bafflement, and who claimed not to have adopted a child, were generally stricken from his list..Yet Agnes feared him, for reasons similar to those that might cause a superstitious primitive to tremble in the presence of a witch doctor. Although he was a healer, his dark knowledge of the mysteries of cancer seemed to give him godlike power; his judgment carried the force of fate, and his was the voice of destiny..His mother, gently pushing Tom to the prime view point at the head of the stairs, seemed unconcerned about her child's venture into the storm..Another pocket. More cartridges. Trying to squeeze just two into the magazine, but his hands shaking and slippery with sweat..As he passed the living-room archway, he said, "Watch out for tidal waves, Uncle Jacob." .Far from idiotic, Junior's cause was his survival and salvation, and he committed himself to it with every fiber of his body, with all of his mind and heart..Her hands trembled as she attempted to fold her sister's clothes into the small suitcase. What should have been a simple task became a daunting challenge; the fabric seemed to come alive in her hands and slip through her fingers, resisting every attempt to organize it. When eventually she realized there was no reason to be neat, she tossed the garments into the bag without concern for wrinkling them..That was the first-and until now the last-long walk he made with a purpose in mind. He went to see a hero.."Fear?" Kathleen asked, more interested in Vanadium's words than in his prestidigitation. "You said you're offering fear to Cain ... as if that was something he would want." .JUNIOR CAIN WANDERED among the Philistines, in the gray land of conformity, seeking one-just one-refreshingly repellent canvas, finding only images that welcomed and even charmed, yearning for real art and the vicious emotional whirlpool of despair and disgust that it evoked, finding instead only themes of uplift and images of hope, surrounded by people who seemed to like everything from the paintings to the canapes to the cold January night, people who probably hadn't spent even one day of their lives brooding about the inevitability of nuclear annihilation before the end of this decade, people who smiled too much to be genuine intellectuals, and he felt more alone and threatened than eyeless Samson chained in Gaza..The purpose of life was self--fulfillment, per Zedd, and Junior was so rapidly realizing his extraordinary potential that surely he would have pleased his guru.
