There was nothing phoney about his handshake, and he knew it. "I'd rather not talk about it over the phone. Can you come over?" Amos was so delighted he jumped up and down. The prince swam to shore, and Amos helped him out. Then they leaned the mirror against a tree and rested for a while. "It's well I wore these rags of yours," said Jack, "and not my own clothes, for the weeds would have caught in my cloak and the boots would have pulled me down and I would have never come up. Thank you, Amos." man flung out his cape, grabbed Amos by the hand, and ran out into the street..She grimaced. "No need to panic. It's not an emergency. I'm licensed." be long..not mysterious. At dusk the sun began to fade and the cottage darkened. Hinda got up. She went out to the clearing's edge and called: "Do you know what it's called?" he asked. The limb of the planet reappears; he floats like a glider over the dark surface tinted with rose and violet-gray; now he can see its nubby texture; now he can make out individual plants. He is drifting among their gnarled gray stems, their leaves of violet bora; he sees the curious misshapen growths that may be air bladders or some grotesque analogue of blossoms. Now, at the edge of the screen, something black and spindling leaps. He follows it instantly, finds it, brings it hugely magnified into the center of the screen: a thing like a hairy beetle, its body covered with thick black hairs or spines; it stands on six jointed legs, waving its antennae, its mouth parts busy. And its four bright eyes stare into his, across forty million miles..He had phoned me about ten after five. I had found the body at seven. "Awhile," I said. "The blood. I killed time earlier tonight reading the promo pamphlet on this place. As the designer says, the combination of arena and spectators turns the dome into one sustaining organism. I smiled my friendly, disarming smile and descended on them. The jailor had at last woken up and, finding his captives gone, had organized a. Bless you, what makes you think I know? (See, there goes Byline.) Actually, critics can make educated guesses from time to time about the tastes of some groups of readers. Editors must, such judgments being their bread and butter? and look how often they fail. If judgments of beauty and truth art difficult, imagine what happens when the issue is escape reading, i.e., something as idiosyncratic as guided daydreams. Perhaps the popularity of series novels is due in part to readers' desire for a reliable, easily reproducible pleasure. But the simplest good-bad scales (like the Daily News system of stars) is always colliding with readers' tastes. Some writers and publishers, in order to be sure of appealing to at least a stable fraction of the market, standardize their product This can be done, but it tends to elimi- "You're in bad trouble with New York if there isn't," says the tech. Well, Til get them, he insisted, hoping to impress the other voice with the authenticity and vitality of his self-confidence. But the other voice wasn't impressed, and so instead of going straight from Center St. to the nearest speakeasy to celebrate, he took the subway home and spent the evening watching first a fascinating documentary on calcium structures and then Celebrity Circus, with Willy Marx. "That's perfectly natural. I hated compulsory talk myself, though I must admit I was good at it. What about your job, Barry? Doesn't that give you opportunities to develop communication skills?"
