You are thirteen, chasing a fox with the big kids for the first time. They have put you in the north field. When he stepped out of his skin and entered the cottage, he did not greet his sister with his usual embrace. Instead he said, "You did not call me to the clearing. You did not say my name. Only when I was tired and the sun almost gone did I know it was time to come home." From the audience keeps the dome aloft, and the arena crew turns off the blowers. The usher continued to hover, smiling, over his chair. Finally Barry realized he was waiting for a tip. Without any idea of what was customary, he gave him a dollar, which seemed to do the trick. McKillian didn't seem to know what she wanted. "No. I... but, yes. Yes, I guess I do." She looked at them, pleading for them to understand. "You have come," she said, and her voice trembled. The end result will be that though my clones, or some of them, might turn out to be valuable citizens of one kind or another, it would be very unlikely that any one of them would be another Isaac Asimov, and their production would not be worthwhile. Whatever good they might do would not be worth the reduction they would represent in the total gene variability of humanity. He raised the bottle and drank again, cursing himself for his mistake. The grey man was so happy he jumped from the trunk, turned a cartwheel, then fell to wheezing and coughing and had to be slapped on the back several times. But at dusk, when he returned to the bungalow, Mama Dolores greeted him at the door with a troubled face. She frowned. "You mean quit running together?" "I mean quit everything: running, swimming, practicing. . .** "Quit practicing?" Her face set. "I can't afford to stop practicing. Gordy, it's time she doesn't use. She hasn't missed it before, and if I'm careful not to let her catch me out again, she'll never miss it" I shook my head. "You're breaking an agreement" "I'm not taking over, though. You know that's just a paranoid fantasy. I use only enough time for practice and no more." I sighed. "You seem to have all the best of it" She snorted. "I wonder. Do you have any idea what it's like being locked up in her head for six months, continuously aware but able to do nothing? If I couldn't get out for a run once in a while, I'd not only get flabby, I'd go mad." She bounced out of the chair and came over to lace her fingers together behind my neck. "What about you? It's three months until January. How can I give up seeing you for three whole months?" .115. Smith is watching the planet Mars. The clockwork which turns the Ozo to follow the planet, even when it is below the horizon, makes it possible for him to focus instantly on the surface, but he never does this. He blew a stream of smoke from pursed lips and tapped his cigarette on an alabaster ashtray. "Yes," she pulled the shawl tighter around her. "When I got up this morning, that chair you're sitting in was bright blue. It's always brown or yellow for you. Selene has to have been sitting in it." "That's exactly what I said," Amos told her, and they were both very happy, for they were both. 121. "That's none of your business!" Nolan reddened. "Besides, it's all over now." But, at the boat, all had not gone according to Amos' plan during the night. The grey man, still puzzling over Amos' wet clothes? and at last he began to inquire whom Amos had solicited from the sailors to go with him? had gone to the brig himself. The red column inched upwards. "One hundred and four." Nolan straightened quickly. "Go fetch. Though he minded, he hadn't the gumption to say so. "I don't remember. Not a lot. They're really." They had good reason, since their futures had been decided more than a little by his decision. Most of the Mayflower II's thirty thousand occupants were used to being asked that question. Fallows usually replied that he had grown disillusioned by the spectacle of the world steadily rearming itself toward the same level of insanity that had preceded the devastation of much of North America and Europe and the end of the Soviet empire in the brief holocaust of 2021, and that he had left it all behind to seek a new start somewhere else. No sane attacking force would contemplate taking an objective like that by a direct frontal assault in the center--the lowermost stretch of the trail was too

well covered by overlooking slopes, and there would be no way back if the attack bogged down. That was what the enemy commander would have thought anyone would have thought. So what would be the point of tying up lots of men to defend a point that would never be attacked? According to the book, the correct way to attack the bunker would be along the stream from above or by crossing the stream below and coming down from the spur on the far side. So the other side was concentrating at points above both of the obvious assault routes and setting themselves up to ambush whichever attack should materialize.
